

College of Agricultural and Environmental Sciences
Horticulture Innovation Lab
UC Davis

World Food Day

Drop by the Horticulture Innovation Lab's outdoor demonstration center to explore low-cost innovations that help reduce poverty and nourish the world

TUESDAY

October
16

12 p.m. – 2 p.m.

Where: Horticulture Innovation Lab
demonstration center
(at Solano Field, see map)

- What is a CoolBot?
- Does moringa grow in California?
- How does a solar dryer work?
- Why does insulation matter to farmers?

Drop by this open house for a tour and discussions about a global research network led by UC Davis that focuses on fruit and vegetable innovations.

Enjoy refreshments and good company!
