

# The Horticulture Innovation Lab partners with top scientists

The Horticulture Innovation Lab (previously called Hort CRSP) has collaborated with exceptional researchers who have expertise not only in fruit and vegetable production, but also in plant pathology, soil science, sociology, postharvest, agricultural education, tropical plants, resource economics, engineering and more. We continue to further strengthen the capacity of our research network with new collaborators. Each of our projects has partners from developing countries and is led by a principal investigator at a U.S. public university, including:

**Jean Ristaino**  
North Carolina State University  
Dept: Plant Pathology  
Dir., Global Plant Health Program;  
2012 Jefferson Science Fellow
